C. D. MORSE, Waterford, Maine.

Couldn't Lift Ten Pounds.

Doan's Kidney Pills Brought Strength and Health to the Sufferer. Making Him Feel Twenty-Five Years Younger.

Sick kidneys cause a weak, lame or aching back, and a weak back makes a weak man. Can't be well and strong until the kidneys are cured. Treat them with Doan's Kidney Pills. Here's the testimony of one man cured.

J. B. Corton, farmer and lumberman, of Deppe, N. C., says "I suffered for years with my back. It was so bad that I could not walk any distance nor even ride in easy buggy. I do not believe I could have raised ten pounds of weight from the ground, the pain was so severe. This was my condition when I began using Doan's Kidney Pills. They quickly relieved me and now I am never troubled as I was. My back is strong and I can walk or ride a long distance and feel just as strong as I did twenty-five years ago. I think so much of Doan's Kidney Pills that I have given a supply of the remedy to some of my neighbors and they have also found good results. If you can sift anything from this rambling note that will be of any service to you, or to any one suffering from kidney trouble, you are at liberty to do so."

A FRED TRIAL of this great kidney medicine which cured Mr. Corton will be mailed on application to any part of the United States. Address: Foster-McMillan Co., Buffalo, N. Y. Sold by all dealers; price, fifty cents per box.

DESIRABLE FARM FOR SALE. A Farm of 50 acres with large 2 story house of 12 rooms with stable and carriage house attached, situated in South Paris. Cow barn and 4 head of cattle. Also C. S. Separator. Will sell house without land if desired. For further particulars address 47-50-1st LAURIN A. WHITMAN, South Paris, Me.

The Thanksgiving Turkey.

Written for the Advertiser.

But We Are Blind.

If you were wise, or I were wise, We should not disagree About the turkey exercise More charity.

If you knew much, or I knew much, We should not quarrel about the turkey exercise More charity.

If you could learn, or I could learn, We should not seem so vain. And happiness might even return To both of us again.

If you could smile, or I could smile, How short the road ahead, How gentle would each action be, And all we said.

If you could know, or I could know, Of each silent, troubled mind, We should not grieve each other so, But we are blind.

CORA M. W. GREENLEAF.

Written for the Advertiser.

At Last.

After the heart throbs of life are past, The joy, the passion, the tears, And the world shall we backward look On the good and ill of the years?

Will the heart still ache for its sorrows deep? Will love unchanged, still hold its place? Oh say! Do you think it will?

After the passions, the love, the hate, The searchings for love, the struggle for gain, Will the heart still ache for its sorrows deep? Will love unchanged, still hold its place?

Oh say! Do you think it will? After the passions, the love, the hate, The searchings for love, the struggle for gain, Will the heart still ache for its sorrows deep? Will love unchanged, still hold its place?

Oh say! Do you think it will? After the passions, the love, the hate, The searchings for love, the struggle for gain, Will the heart still ache for its sorrows deep? Will love unchanged, still hold its place?

The Thanksgiving Turkey.

Nearly all authors who have written of the turkey have regarded it as a descendant of the well known wild turkey of North America, though some have marked differences met with among domestic turkeys as compared with the different strains of wild turkeys to indicate that this is not so.

Audubon, however, has noted the coming of wild turkeys into the banyard, where they paired with the domestic turkeys, while it is also well known that the American bronze turkey originated from the union of the wild turkey of North America with the domestic turkey of this country, things which go to show that these birds are kin.

It is generally conceded at the present time that all turkeys of the world are derived primarily from three original forms known as the North American, the Honduran and the Mexican.

The genuine North American turkey is described as "black, beautifully shaded with a rich bronze, the breast plumage being dark bronze illuminated with a lustrous finish of coppery gold."

The Mexican turkey is said to have a body color of "metallic black, shaded with a rich bronze, its tail and feathers being tipped with black," while the markings of its plumage are thought to "show its influence on the variety of domestic turkey known as the Narragansett."

Most beautiful of all, however, is said to be the Honduran turkey, which is described as having a beauty of covering the equal of the Impeyan pheasant. "The head and neck of this wild turkey are colored, no less than the body, with the ground color of plumage is described as of beautiful bronze-green, banded with gold, bronze, blue and red, with several bands of brilliant black. It is to be deplored that this variety cannot be bred successfully as a domestic fowl in a northern climate."

A Card.

We, the undersigned, do hereby agree to refund the money on a 50-cent bottle of Greene's Warrented Syrup of Tar if it fails to cure your cough or cold. We also guarantee a 50-cent bottle to prove satisfactory or money refunded.

No Birds on Ladies' Hats. Chairman Carleton of the fish and game commission has sent a circular letter to the milliners of the State. The text of the letter is as follows:—

Dear Sir (or Madam): I beg to call your attention to section 5 of chapter 32 of the Revised Statutes, as amended by chapter 132, section 12, of the Public Laws of 1905, as follows:—

"No person shall, within the State, kill or catch, or have in his or her possession, living or dead, any wild bird other than a game bird, nor purchase, offer or expose for sale, any such wild bird after it has been killed or caught. No part of the plumage, skin or body of any bird protected by this section shall be sold or have in his or her possession for sale. The English or European house sparrow, the common crow, and the hawk, and owls, muntjaks, so called kingfishers, and blue heron, so-called, are not included among the birds herein protected; and for the purpose of this act, the following only shall be considered game birds: the anatidae, commonly known as swans, geese, brant, and river and sea ducks; the rallidae, commonly known as rails, coots and gallinules; the limnidae, commonly known as snipe, woodcock, sandpipers, tatters and curlews; the gallinae, commonly known as wild turkeys, grouse, prairie chickens, pheasants, partridges and quails. Nothing in this section, however, shall be construed to affect in any way the protection of game birds, as provided in section 7 and 9. Any person who violates any of the provisions of this section shall be fined five dollars for each offence, and an additional five dollars for each offence, or for the purpose of this act, the following only shall be considered game birds: the anatidae, commonly known as swans, geese, brant, and river and sea ducks; the rallidae, commonly known as rails, coots and gallinules; the limnidae, commonly known as snipe, woodcock, sandpipers, tatters and curlews; the gallinae, commonly known as wild turkeys, grouse, prairie chickens, pheasants, partridges and quails. Nothing in this section, however, shall be construed to affect in any way the protection of game birds, as provided in section 7 and 9. Any person who violates any of the provisions of this section shall be fined five dollars for each offence, and an additional five dollars for each offence, or for the purpose of this act, the following only shall be considered game birds: the anatidae, commonly known as swans, geese, brant, and river and sea ducks; the rallidae, commonly known as rails, coots and gallinules; the limnidae, commonly known as snipe, woodcock, sandpipers, tatters and curlews; the gallinae, commonly known as wild turkeys, grouse, prairie chickens, pheasants, partridges and quails. Nothing in this section, however, shall be construed to affect in any way the protection of game birds, as provided in section 7 and 9. Any person who violates any of the provisions of this section shall be fined five dollars for each offence, and an additional five dollars for each offence, or for the purpose of this act, the following only shall be considered game birds: the anatidae, commonly known as swans, geese, brant, and river and sea ducks; the rallidae, commonly known as rails, coots and gallinules; the limnidae, commonly known as snipe, woodcock, sandpipers, tatters and curlews; the gallinae, commonly known as wild turkeys, grouse, prairie chickens, pheasants, partridges and quails. Nothing in this section, however, shall be construed to affect in any way the protection of game birds, as provided in section 7 and 9. Any person who violates any of the provisions of this section shall be fined five dollars for each offence, and an additional five dollars for each offence, or for the purpose of this act, the following only shall be considered game birds: the anatidae, commonly known as swans, geese, brant, and river and sea ducks; the rallidae, commonly known as rails, coots and gallinules; the limnidae, commonly known as snipe, woodcock, sandpipers, tatters and curlews; the gallinae, commonly known as wild turkeys, grouse, prairie chickens, pheasants, partridges and quails. Nothing in this section, however, shall be construed to affect in any way the protection of game birds, as provided in section 7 and 9. Any person who violates any of the provisions of this section shall be fined five dollars for each offence, and an additional five dollars for each offence, or for the purpose of this act, the following only shall be considered game birds: the anatidae, commonly known as swans, geese, brant, and river and sea ducks; the rallidae, commonly known as rails, coots and gallinules; the limnidae, commonly known as snipe, woodcock, sandpipers, tatters and curlews; the gallinae, commonly known as wild turkeys, grouse, prairie chickens, pheasants, partridges and quails. Nothing in this section, however, shall be construed to affect in any way the protection of game birds, as provided in section 7 and 9. Any person who violates any of the provisions of this section shall be fined five dollars for each offence, and an additional five dollars for each offence, or for the purpose of this act, the following only shall be considered game birds: the anatidae, commonly known as swans, geese, brant, and river and sea ducks; the rallidae, commonly known as rails, coots and gallinules; the limnidae, commonly known as snipe, woodcock, sandpipers, tatters and curlews; the gallinae, commonly known as wild turkeys, grouse, prairie chickens, pheasants, partridges and quails. Nothing in this section, however, shall be construed to affect in any way the protection of game birds, as provided in section 7 and 9. Any person who violates any of the provisions of this section shall be fined five dollars for each offence, and an additional five dollars for each offence, or for the purpose of this act, the following only shall be considered game birds: the anatidae, commonly known as swans, geese, brant, and river and sea ducks; the rallidae, commonly known as rails, coots and gallinules; the limnidae, commonly known as snipe, woodcock, sandpipers, tatters and curlews; the gallinae, commonly known as wild turkeys, grouse, prairie chickens, pheasants, partridges and quails. Nothing in this section, however, shall be construed to affect in any way the protection of game birds, as provided in section 7 and 9. Any person who violates any of the provisions of this section shall be fined five dollars for each offence, and an additional five dollars for each offence, or for the purpose of this act, the following only shall be considered game birds: the anatidae, commonly known as swans, geese, brant, and river and sea ducks; the rallidae, commonly known as rails, coots and gallinules; the limnidae, commonly known as snipe, woodcock, sandpipers, tatters and curlews; the gallinae, commonly known as wild turkeys, grouse, prairie chickens, pheasants, partridges and quails. Nothing in this section, however, shall be construed to affect in any way the protection of game birds, as provided in section 7 and 9. Any person who violates any of the provisions of this section shall be fined five dollars for each offence, and an additional five dollars for each offence, or for the purpose of this act, the following only shall be considered game birds: the anatidae, commonly known as swans, geese, brant, and river and sea ducks; the rallidae, commonly known as rails, coots and gallinules; the limnidae, commonly known as snipe, woodcock, sandpipers, tatters and curlews; the gallinae, commonly known as wild turkeys, grouse, prairie chickens, pheasants, partridges and quails. Uses for Paper.

Unnumerable Things Made of Maine Pulp.
Unnumerable things are manufactured of paper nowadays. Through the industry of Americans paper pulp has been put to uses of which the average person would never dream. As a staple in this country paper has come to rank third in importance in the list of man's wants. The products of mother earth find their place, including foodstuffs, clothing, etc., and the second place must be given to iron and steel the bulwark of America's commercial life. Besides affording food for the mind, the various uses to which paper has been put have given profitable work to thousands. Over 50,000 persons are employed in the manufacture of paper alone. Thousands of other hands take the material, break paper and transform it into many things, both useful and ornamental.

The commercial uses to which paper is put are of course the greatest. The bulk of the paper that is manufactured in the United States is used in the channels of business. Hundreds of thousands of books for bookkeeping purposes, catalogues, envelopes and advertising matter are necessary to carry on business correspondence throughout the country. Not to speak of carloads of the dainty printed product that are manufactured for the writing of love missives.

Then, of the rougher material, there are manufactured car wheels, card boards, paper bags, boxes, shipping tags and a thousand and one other things used in the regular transaction of business. Of course literature and art require their share of white paper.

Flour barrels are made of paper as well as boats, tubs and pails. These articles are made with waterproof qualities. Varnish is largely employed for this purpose. Much paper is used for insulating in the electrical business. The photographic uses to which paper is put are many.

Paper is used for building purposes, every year. Garments made of paper, spun with cotton, are to be found on sale in every city in the land. Collars, cuffs and shirt bosoms, otherwise known as "dickies," have long been worn at one-tenth the cost of linen. Funnels and crepe paper hats are made for women.

Paper buttons are a part of many pieces of wearing apparel which you buy. Considerable paper is used as stiffening for dresses. Shoes and slippers are also manufactured of paper. In the north-west where the winters are severe, paper vests are worn. The coldest Arctic wind does not penetrate them.

Much paper is used for filtering purposes. Even rope is on the list. By shredding the paper and twisting it into a many-plied rope, water is prevented from passing through. The manufacture of paper, however, appears to have been more for the purpose of showing how unlimited are the uses to which paper can be put.

Thousands of paper napkins are used in certain classes of restaurants daily. Of course, they can only be used once, but, like all other waste paper, they find their way back to the mill and are turned into something else in the paper line.

Nearly everything imaginable is turned out in the novelty paper line. Flowers are made of crepe and tissue paper. Crepe and tissue paper are used extensively in store windows and house decorations. Flags are made of it. It is also used in the manufacture of green leaves that look natural.

Some idea of the extent paper crepe can be used for decorative purposes may be obtained from the fact that it is manufactured in 30 shades. Paper crepe is much in demand for table decorations for banquets and other functions.

Decorated crepe paper is made in many designs and in colors for many purposes. Crepe paper, until within the last few years, was made by hand. Since the establishment of the machine method there has been considerable advancement in the knowledge of its uses, and this kind of paper is recognized as the leading staple of light art work.

Test or litmus papers are used in laboratories and factories for indicating the presence of acids or alkalies and various liquids.

Cork paper, an American invention, is made by coating one side of a thick, soft and flexible paper with a preparation of glue, gelatine and molasses, and covering it with finely ground cork. It is rolled in. This paper is used for packing glassware and bottles.

Silver tissue, or what is known to the trade as glass-bleached tissue, is extensively used for wrapping silverware. It is specially treated to remove all chemicals that would tend to corrode or tarnish silver. The best qualities of this paper are made in England.

Waterproof paper is another curious form of the staple. It is produced by making the ordinary strawboard on a cylinder machine, running it through a vat of resin and other waterproofing heated to a temperature of 350 degrees Fahrenheit, then placing together the sheets so resinized and subjecting them to a hydraulic pressure. Thus a paper board is made. Lumber of this kind is used for the interior of railway cars and for perforated chairs.

The product of paper that is used exclusively for clothing is called chamolite, or mangled fibre. It is made from a long-fibred, strong, sulphate stock, and is passed through a specially constructed machine which mangles or crushes the fibre, giving it a soft and flexible character, like chamolite. It is used in dress skirts and for undergarments, adding an advantage over cloth in being practically impervious to air.

Paper-mache is another product of paper almost unlimited in its uses. The materials of which it is made are the commoner classes of work, are old waste and scrap paper, pulp and mixed with a strong size of glue and paste. To this are often added quantities of ground chalk, clay and lime.

The articles for which paper-mache is used makes a long list, including mental boxes, trays, safes, dolls' heads, toys, anatomical and botanical models, artists' lay figures, picture frames, panels and other mural ornaments.

Paper-mache has also been used in the construction of coaches and for door panels, while under the name of carton pierre, which is practically the same substance, it is molded into ornaments for walls and ceilings. Ordinary roofing and carpet felts are similar in manufacture. The use of moistened paper-mache in electropainting and the method followed are too well known to need description.

In the use of paper for wall hangings the artistic and practical come together. The first patterns of wall paper were extremely crude, but through the slow process of development a wonderful degree of perfection has been attained. Beauty and taste to the decorative art now find their highest exponent in "reppe morocco" and fine colored paper.

Newspapers Best Givers.
The other day a reporter of this paper was asked to publish a statement in three different parts of the paper to the effect that a social dance was to be held in a certain hall at which a certain orchestra was to furnish music. The publication was refused, as the items were pure and simple advertisements. Finally the order was received to run one of them and we did so for pay. Since then we have been charged by a weekly paper, published in this vicinity, of demanding pay for publishing local news items.

If the item in question was not an advertisement of special and particular interest to the promoters of the social dance, why was it requested to appear in three different departments of the paper?

We refer to this incident just to call attention to the fact that we believe we are qualified to judge of the difference between plain, unvarnished advertising and a matter of news of interest to the general public, and that we propose to exercise that judgment as we see fit. In reference to the matter of giving free notices to the church societies and benefit organizations, which most newspapers are in the habit of doing without money and without price, the following is most appropriate at this time when we are criticised for charging 50 cents for a social dance advertisement to be held by private persons as a money-making project.

In the course of a recent address in the Unitarian church in Madison, Wis., Amos Parker Wilder of the Wisconsin State Journal said:

Newspapers are the best givers in the community. No one else gives so much money to good causes, for a newspaper's space is money. The average citizen is interested in one good thing, a hospital meeting or a church supper or the Humane Society.

The newspaper is bolstering up half a dozen projects daily. It is sometimes said: "Why, these topics are news, it is to read about them that people subscribe to the paper." It is true enough that these topics have a certain news value, but a few lines soon exhaust that. From the standpoint of public interest it is enough to know once that the Humane Society will meet Tuesday, or that the second ward Local Legion will hold a contest.

A handful of people may be interested to have the announcement dinned into their ears daily until the fatal day, but a newspaper is published for many thousands of people. Its space is limited and it costs money to set type.

No one knows what immense free service newspapers give to these countless good causes, and how many journals have been bankrupted because the owner made more than a certain amount of money, to turn newspapers over to charity instead of to "news," which the average reader wants. There must be a choice section of Paradise reserved for this underestimated profession which so loves its fellowmen.—[Morning Sentinel.]

STATE OF OHIO, CITY OF TOLEDO, ss.
LUCAS COUNTY.
Frank J. Cheney makes oath that he is senior partner of the firm of F. J. Cheney & Co., doing business in the City of Toledo, County and State aforesaid, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of Catarrh that cannot be cured by the use of HALL'S CATARRH CURE.

Sworn to before me and subscribed in my presence, this 10th day of December, A. D. 1905.
A. W. C. CHENEY, Notary Public.
HALL'S CATARRH CURE is taken internally and acts directly on the blood and mucous surfaces of the system. Send for testimonials free. Sold by all Druggists, 75c.
Take Hall's Family Pills for constipation.

The Boy Just Out of School.
Did you ever pause and contemplate that particular and peculiar phase of our nature developed by the school boy when "school's out" and he is on his way home? Ordinary humanity, when released from the toils of the day, is prone to seek rest. The boy, on the other hand, is full of energy and all such effeminate ideas. He is composed of but three parts, legs, arms and yells, and the yell is the biggest part of him. His legs and arms have been kept in irksome, compulsory quietude all day and must soon be exercised. His voice has been seething and swelling in him for hours, and now must have vent. As soon as he is clear of the school house steps he stops and deliberately yells a yell that is ear splitting, but which has no more object, meaning, or direction than the midnight wailing of a mule, then he appears on the run, with his arms flying about like the scintillation of a pin wheel.

There is but one thing that has the slightest soothing effect on the boy when he is on the way home from school. He can see his father a long way off, and can see his mother's face upon his face. The moment he becomes as proper as a model letter-writer, and the neatly modulated voice with which he wheedles the author of his being out of five cents on the way is a lesson for future ambitious savings is a lesson for future ambitious savings is a lesson for future ambitious savings.

Middle Intervale.
A soldier friend at Togus, sends a clipping saying:—Veterans of the Civil War are passing away at the rate of 50 a month, according to the reports submitted by Commissioner of pensions, Warner. During the fiscal year ending June 30, a total of 9000 veterans died.

I Give Honor to Whom It Is Due.
Dr. David Kennedy's Favorite Remedy, of Pondicherry, N. Y., cured me of Bright's disease and Gravel. Four of the best physicians had failed to relieve me. I have recommended it to all of my friends. I have seen it cure scores of people with like success, and I know it will cure all who try it.—Mrs. E. P. Mizner, Burrill Hill, O. Price \$1.00, all druggists; 6 bottles \$5.00.

Concerning the Lyceum.

It was but a few years ago when every High school, academy and college in Maine boasted some kind of a debating society in which young men were trained to speak logically and eloquently and to present manfully the great problems arising and demanding settlement. But in recent years there seems to have been a slow but persistent diminution in the number of these societies, while in those that have survived a kind of pathetic and languishing interest is manifested.

Causes may be found for this loss of interest in the great art of forensic speaking. The tendency to indulge increasingly in athletic sports such as are followed with so great zeal in our schools and colleges; the increasing complexity of our modern life with consequent fatal dissipation of interest and attention on the part of the average student; the generally unparliamentary method of conducting lyceum meetings with its deteriorating effects; and the very generally recognized condition that a necessity no longer exists of depending upon oratory to carry weight in national affairs, inasmuch as the 20th century can readily dispense with long paragraphs and is well satisfied if men apply themselves assiduously to the commercial tasks in hand.

While the causes of this decline may be apparent, they do not argue at all that public speaking is a lost art, nor do they necessarily convince that a revival of the debating societies would not prove possible and profitable. They stand as causes alone, and due to the fluctuating conditions of our modern, complex social life.

Those who hope earnestly to see this revival base their hopes on a certain well understood ground. They believe the appreciation of oratory and of forensic ability is on the ascendancy, rather than on the decline. They believe further that great problems of society, local and national are forcing themselves forward forming parties and groups of individuals allied to some one particular idea or principle, all of which must come to rely upon speakers and orators to defend and champion their cause. They believe that the athlete who has gone to the extreme and that the result in increased attention to intellectual growth along very practical and immediately useful lines. And finally they hope as they do because they see in the skillful orator a determining factor in society and recognize that he who can stand upon his feet and sway audiences by his eloquence is more powerful and useful to society than the athlete who too often relies on brute force as the stepping stone to victory.

If these hopes are well grounded then certainly the students of today do well to turn again to the lyceum in which they may, if they would, gain insight into the great art of public speaking, become skillful in the task of wrestling with the problems that arise, and train their mental faculties into ways most helpful and beneficial to themselves.

TO CURE A COLD IN ONE DAY. 47-49
Take Laxative Broom Quinine Tablets. All druggists refund the money if it does not cure. W. Groves' signature is on each box, 25c.

Mrs. Eliza R. Smith.
Oct. 9, Mrs. Eliza R. Smith, after a severe illness lasting almost eight weeks, writes beyond from her home in Dixfield, where she came as a bride more than 65 years ago and where her home has been ever since.

Mrs. Smith was the daughter of Capt. Elias and Sally (Bullen) Richmond. She was the second child of a family of ten, and only one sister, Mrs. Diantha A. Robinson of Napa, Cal., now survives her. A brother, Judge Wm. Crawford Richmond died in Los Angeles, last April.

She was born in Oxford, June 13, 1814. She was the oldest child in Dixfield for a number of years. Some of her most noticeable characteristics all through her long life were industry, neatness, order, love of flowers and enjoyment in reading.

She leaves an aged husband, Samuel M. Smith, two daughters, Mrs. Julia B. Kildner, who has lived with and cared for her parents many years, and Mrs. George E. Wright, and one son, D. E. Smith. She leaves also nine grandchildren and three great grandchildren.

Fifth Annual Exhibition.
The fifth annual exhibition of the Maine State Poultry and Pet Stock Association, will be held in city hall, Portland, December 5th to 13th inclusive.

One of the pleasant features of this, the fifth exhibit, is the fact that the city secretary, A. L. Merrill of Auburn, has been negotiating with the State Commissioner, A. W. Gilman, and has at last made the necessary arrangements with Mr. Gilman to hold an institute Wednesday and Friday. He has also made arrangements with A. S. Hunter of West Roxbury, Mass., who is to judge the dressed poultry Wednesday morning at 8 o'clock sharp.

In the afternoon, Mr. Hunter will give a short talk on dressed poultry, and explain his reasons for making the different awards. In the evening Mr. Hunter will give a lecture on, "How to select your Christmas Dinner." This gentleman has been an extensive traveler in France and England, and is familiar with the best French and English methods in the culinary department. Mr. Merrill has also been successful in making necessary arrangements with the National Coal Tar Co., of Boston, to disinfect the hall with their Carboline, which is believed to be by far the best disinfectant on the market.

Fighting Shows Nationality.
"By the way they fight I can tell men's nationality," said a policeman. "An Englishman when he is going to fight throws his hat and coat in a blustering way on the ground."

"A Scot pulls his hat down tight on his head and buttons his coat carefully. The canny Scot is not going to endanger his head or his property."

"A German appeals to the crowd to hold his coat. The Celtic nature desires sympathy and tries to build it up."

"A German—methodical, precise—holds his coat in a neat bundle and lays his hat on top of it to hold it down."

"An American is so anxious to pitch in and have the fight over that he starts fighting without giving a thought to hat or coat."

Value of the North Pole.

Meaning to United States of Its Discovery.

Robert E. Peary, now sailing in the steamship Roosevelt northward to plant the American flag on the North Pole, has sent to Congress his opinion on the real value of the North Pole to the United States. He says:

"The meaning of the discovery of the North Pole to the United States is twofold, scientific and moral. In science it means valuable additions to geographical knowledge. It means the possibility (in the minds of reputable scientists even the probability) of lifting a new land with a new fauna and flora, out of the 'terra incognita' that now surrounds the pole. It means opening up of the secrets and revealing the economics of an area of some 3,000,000 square miles which stands to-day as a challenge and reproach to us."

"It means an opportunity for observations of phenomena of the pendulum, to determine the precise figure of the earth; and in the fields of magnetism and meteorology to permit a clearer definition and more precise application of the laws of these sciences. It means the acquaintance with the general hydrographic features of the now unknown central polar basin. It means enriching our studies and museums with data and collections in zoology, geology and physics."

"The discovery of the North Pole means to the United States National prestige. Nansen's expedition, fitted out by his King, his parliament and wealthy private citizens, impressed the world with the material which makes up the descendants of the Vikings. Arctur's expedition, costing \$200,000, was worth to Italy many times its cost, for it drove home to the civilized world the fiber of which Italians are made."

"Little clouds" neglected—thousands of lives sacrificed every year. Dr. Wood's Norway Pine Syrup cures little colds, cures big colds, down to the very verge of consumption. 47

An Over Abundance of Wood.

Less than a century ago our grandfathers who cleared up farms in Maine chopped down great pines and spruces and maple and then into lengths, piled them in great heaps, and when the wood was dry, burned them to ashes, so they would not encumber the ground. Timbers that would be worth many millions of dollars in stumpsage, if they were saved to-day, were destroyed after this manner. In the places of old growth forests, which would sell for \$30 to \$50 an acre, we now find in many places abandoned farms and pastures grown up to bushes.

While those old days of lavish waste have long since gone, we are still unable to comprehend the real value of our forests. In spite of painful and costly lessons in practical forestry, which we are learning every year, we are far behind the residents of Europe in appreciating the worth of our forests. Go among the homes of the poorer classes in any European city and most of the household furniture will be found to be made of iron, with brass as a substitute among the more wealthy. One summer night in company with two Dublin policemen we made a visit among the poorer residents of Patrick and Montgomery streets, two thoroughfares holding many cheap tenement buildings. In room after room we found iron beds, iron chairs and iron tables, and to the latter with slate or limestone tops. Even the household mortar and pestle, which were used for breaking coffee and reducing parched barley to flour, were made from slate rock instead of wood. Now and then we saw an old-fashioned kitchen chair of wood, though in most cases the back was gone and the legs had been mended so many times that the repairs spoke of an extreme old age. In London the same condition prevailed. No wooden furniture was found among the tenement houses, for the reason that wood was too expensive for such use. Of course, in the country among the tenants of big estates wood was more plentiful, though not nearly so common as it is in the tenement districts in the big cities of America. In fact, if one were to pass an opinion as to the comparative frequency of iron and wood furniture among the poor of the two nations, it could be said with truth that as wooden furniture is the kind used by the poor in this country, in a like degree is iron the furniture among the poor in the United Kingdom.

And this statement of actual fact tells the whole story. Except in this country and a few thinly settled colonies, iron furniture is cheaper and more in use among the middle and poorer classes than wood. Now the question comes home to us as to how much longer we are to continue our wasteful policy regarding the use of wood. Will we ever reach the condition which prevails in Europe? Or shall we be obliged to feel the want of timber before we know the worth of it?

Theodore Roosevelt's second article describes a very different sort of hunting and country from that dealt with in the October number of Scribner's. In this he describes the hunting of the coyote with a pack of hounds, riding at full speed over the flats and great rolling prairies. There is the same frank enjoyment of the vigorous exercise and exhilaration of the chase, and spirit of comradeship with the guides and other members of the hunting party.

ALWAYS ACCEPTABLE
is a box of our creamy bon-bons. They literally melt in your mouth. They are so deliciously flavored they do not cloy. You can eat a pound at any time and want more. They are pure sugar and cream. Babies cry for them, school girls hanker for them.

YOUNG LADIES
adore them. Matrons enjoy them, and grandmothers use them in their mouths every time she thinks no one is looking. How long is it since you treated your family to a box.

PROBATE NOTICES.

To all persons interested in either of the Estates hereinafter named.
At a Probate Court, held at Paris, in and for the County of Oxford, on the third Tuesday of October, in the year of our Lord one thousand nine hundred and five. The following matter having been presented for the action thereupon herein-after indicated, it is hereby ORDERED:

That notice thereof be given to all persons interested, by causing a copy of this order to be published three weeks successively in the Norway Advertiser, a newspaper published at Norway, in said County, that they may appear at a Probate Court to be held at said Paris on the third Tuesday of November, A. D. 1905, at 9 o'clock of the forenoon, and be heard thereon if they see cause.

WILLIAM CLIFTON HAZELTON, late of Denmark, deceased; will and petition for probate thereof, presented by Katherine H. Carver, the executrix therein named.

LIFORRELL A. EASTMAN, late of Fryeburg, deceased; first and final account presented for allowance, and petition for order to discontinue balance remaining in his hands presented by Charles C. Warren, administrator D. H. N. O. T. A.

SUSIE M. WALKER, of Norway, ward; petition for license to sell and convey real estate presented by Helen S. Walker, guardian.

JOSHUA T. HALL, late of Mexico, deceased; first and final account presented for allowance by Alfred S. Kimball, administrator with the will annexed.

MERCY J. FOLEY, late of Norway, deceased; final account presented for allowance by William F. Jones, administrator with the will annexed.

MERTIE STANLEY of Norway; petition that her name be changed to Mertie Stand, presented by said Mertie Stanley.

ADDISON B. HERRICK, Judge of said Court. A true copy—Attest:
49-45 ALBERT D. PARK, Register.

NOTICE.

The subscriber hereby gives notice that she has been duly appointed executrix of the last will and testament of

JOHN WYMAN, late of Norway. In the County of Oxford, deceased. All persons having demands against the estate of said deceased are desired to present the same for settlement, and all indebted thereto are requested to make payment immediately. Oct. 17, 1905. 49-45 HANNAH E. WYMAN.

NOTICE.

The subscriber hereby gives notice that she has been duly appointed executrix of the last will and testament of

GEORGE CHAPMAN, late of Brownfield, in the County of Oxford, deceased, and given bonds as the law directs. All persons having demands against the estate of said deceased are desired to present the same for settlement, and all indebted thereto are requested to make payment immediately. Oct. 17, 1905. 49-45 SUSAN E. CHAPMAN.

NOTICE.

The subscribers hereby give notice that they have been duly appointed executors of the last will and testament of

ANGELA B. WILKINS, late of Waterford, in the County of Oxford, deceased. All persons having demands against the estate of said deceased are desired to present the same for settlement, and all indebted thereto are requested to make payment immediately. Oct. 17, 1905. 49-45 EDWARD W. STONE.

NOTICE.

The subscribers hereby give notice that they have been duly appointed executors of the last will and testament of

SUSAN E. EASTMAN, late of Stow, in the County of Oxford, deceased. All persons having demands against the estate of said deceased are desired to present the same for settlement, and all indebted thereto are requested to make payment immediately. Oct. 17, 1905. 49-45 JOHN A. D. EASTMAN, MARTHA A. EASTMAN.

OTISFIELD GORE.

Mark Britt of Norway visited at Mrs. Marton Brett's, last Saturday and Sunday.

Lillian Martin of East Otisfield has been visiting her friend, Ella J. Bean, for a few days.

Charles Martin and wife visited their friends, J. Henry Edwards and sister, Ella Bean, recently.

Daniel L. Brett swapped a horse for a sucking colt with Dr. Wright of Bolster's Mills, a few days ago.

Charles H. Kretz and J. Henry Edwards went to West Paris to attend the Odd Fellows' meeting one night last week.

Wendall P. Linnell with his crew of men has been pitting up apples in the neighborhood. He will ship them across the water.

NORTHWEST NORWAY.

Susie Kimball is at home for a vacation.

George Brown is working for W. S. Buck.

Mrs. Ambrose Farnum has been to Boston recently. Her sister went with her.

Orin Brown and Oliver Merrill shot a nice deer, last Monday afternoon, not far from here, and Ellsworth Farnum shot one, Tuesday, near H. I. Holt's.

Arthur Messerve has gone to Ketchum to work in the woods during the ensuing winter. His mother is at Otisfield visiting relatives for a short time. He expects Henry Howe to do his barn chores during his absence. Mr. and Mrs. Will Messerve visited at Arthur's a few days recently and then went to Newry visiting. Arthur and his mother went with them to Newry. Mr. Smith from Bethel visited there not long ago.

CASCO.

Myrtle Edes of Edes Falls is clerking at S. H. Mann's.

Verna I. Nichols has been visiting her aunt, Belle J. Leach.

Mr. and Mrs. Ira Page and little Henry have been to Whitefield, N. H., on a visit.

Mrs. Roscoe N. Mayberry has been quite sick the past week, attended by a physician.

Dr. Webster Wright and wife left Monday, Nov. 6, for Melrose, where they will spend the winter.

Several of the young people of this place held a Halloween dance in Mann's hall, Monday evening, Oct. 30.

Rev. Samuel Brown of Raymond has supplied the pulpit in the Casco Union church the past three Sundays.

WEST BUCKFIELD.

Victor Pearson sold two cows to B. E. Gerish.

Harry Buck has a crew sawing spruce in the woods.

Fred M. Cooper has bought a pair of grey horses.

Dan Emery and family were at S. M. Bonney's, Sunday.

Osman Warren of East Buckfield visited his nephew, O. D. Warren, last week. John and Edwin Smith and Gene Jordan went to Stow, Wednesday. John and Gene came back Friday.

Arthur Hall has bought Wm. Harlow's farm, Mr. Hall and wife are to take a trip to Portland, Boston and New York this month.

Mrs. Emma Bonney of North Turner is up to her son's, S. M. Bonney's. Her daughter, Mrs. Harry Crockett of Dixfield, was down last week.

Charles Smith brought over his father and mother from Conway, N. H., last week, to see their daughter, Mrs. John Flagg. Mrs. Flagg was quite sick Thursday night and Friday.

Advertised Letters, Norway.
Miss Mary Driscoll, Mrs. John Martin, Mrs. C. Chapman, James P. O'Hara, William Malady, Harry H. Clough, Pete Brown.

BETHEL.

Trustees of Gould Academy met Tuesday and elected:
Pres.—Hon. A. E. Herriot.
V. Pres.—J. H. Gehring.
Clerk.—Hon. J. M. Philbrook.
Auditor.—Hon. E. S. Kilborn.
E. C. Park and H. H. Hastings were elected new members of the Board of trustees.

Mrs. Betsey Swift is very feeble. E. E. Holt is hanging paper in Austin Wheeler's house.

J. M. Philbrook sent away a car of stock last Monday.

Mr. Haskell intends to finish his cider making this week.

Eugene Heath is sick at his brother's, Charles Heath on R. R. street.

W. E. Bosserman is now occupying his purchase at G. R. Wiley's drug store.

Beckler Bros., of Albany, have lately shipped away wood in car lots at this station.

Mrs. Alice Farwell is now occupying the Bisbee rent, lately occupied by D. G. Lovejoy.

Eli F. Stearns has sold 800 barrels of apples, and has on hand 800 more, and they are still coming in.

John Coburn and son, Arthur, are enlarging their homestead, on Mechanic street, by adding a second story to the house and putting in a new and larger ell.

The trustees of the ministerial and school fund called a special meeting last Saturday and elected H. N. Upton to fill the vacancy caused by death of S. B. Twitchell. J. N. Furlington was chosen Treasurer.

Continual snow, except Sunday, since Friday, 10 a. m., and continuing rapidly at this date, Wednesday, 1 p. m. The batch of snow now measures 10 inches, and is very heavy. There has been no rain during the time and no frost in the ground. The woods have been full of hunters ever since the storm commenced but they have yet to report the first deer in this vicinity. It is reported that Adrian Grover, near West Bethel, shot a 250 pound buck not far from his home, Maple Lane Farm.

Ethel Morse was in Portland, last week.

Will Garey was on a hunting trip last week.

Mrs. W. A. Bunting and children have returned to Groveton, N. H.

Mrs. Eli Stearns is with her sister, Mrs. Walter Foster, who is ill.

Harry Hutchinson is visiting his sister, Mrs. Fred Bartlett in Newry.

Mrs. Henry Coy of Oxford has been visiting her sister, Mrs. Mina Harriman.

Sam Mayconnell and Edgar Coolidge are deer hunting on Sunday river.

Miss A. M. Robertson has gone to Augusta to spend the winter with her sister, Mrs. G. A. Robertson.

Harry W. Furlington has been elected secretary and treasurer of the sophomore class of Bowdoin college.

Mrs. S. A. Dudley, who has been at Hermon Mason's the past month, has returned to her home in North Bridgton.

Friends here have received word that the party in which were Mrs. Enoch Foster, Mrs. Thomas T. Twitchell and Alice Twitchell, has returned from a 5½ months trip in Europe.

W. F. Kendall got a deer on Sunday river, Monday. Harry King of Look's Mills, secured a deer Tuesday. The Lapam boys shot a deer near West Bethel, Saturday. Ames King of Locke's Mills, shot a deer near Dana Hall's, Tuesday.

Middle Intervale.
Frank Abbott has moved to Bethel Hill.

Joseph Baker, a junk peddler from Lewiston, was here recently.

J. I. Spofford recently visited his sister, Mrs. Wilson T. Brown, and called on his cousin, V. D. Cole of Rumford.

Hallowe'en, here and there a party gathered. Will some one inform us through the Advertiser about this day?

A student from Bates college preached at the church, Nov. 5th, and is expected to continue every other Sunday through the winter.

Mrs. Woodbury has left the Capen House for her home in Portland. She will again be missed for her kindly acts and cheering words to those in need.

Mrs. N. Annas is somewhat improved in health. Her daughter, Belle V. Annas, died about one year ago, as we recently learned, in the West. She was a dutiful daughter and her mother now misses her visits and help much in her declining years. She married a Mr. Furnace and went to Chicago to live, where she soon died.

BROWNFIELD.
A Singing School.
Mr. Clark of Cornish is holding a singing school at the Bean Memorial school building every Thursday evening. About 25 are in attendance.

The schools about town will close this week.

Mrs. Sarah Johnson is quite sick with pneumonia.

Mrs. C. W. Harmon and Mrs. H. G. Wakefield made a trip to Portland, Monday.

George Rowe has been painting the numbers upon the rural fire delivery boxes this week.

A goodly number of the G. A. R., and W. R. C., attended the campfire held at Denmark this week.

Chas. McFarlane and wife of Dorchester have been boarding for several weeks at James Wentworth's.

Irving Linscott has sold his residence here to Albra Garland of Conway, who expects to move here in the spring.

Several from this village attended the phonograph entertainment and oyster supper at Merrill Corner, given by the Baptist circle.

The Universalist circle held a fair and Harvest supper, at the town hall, on Wednesday evening, which was largely attended. The proceeds were about \$25 and will be used toward repairing the church.

H. B. Bartlett has returned from a trip to Boston and Portland, where he visited his daughter, Mrs. Maude Cox, and his son, Jesse A. Bartlett, who is conductor on the electric cars in the latter place.

How About Wild Ginseng.
Information regarding wild ginseng comes in slowly. Somebody tells us a large quantity was dug in Greenwood a few years ago. Have been unable to get the report verified.
Do you know anything about it?
If it is so some one must know about it.

NORTH LOVELL.

Shot Deer With Spike.

Some time ago, Willis McKean, of East Stoneham, was working in the older mill and went out with a shot gun to look for small game, and the first game he saw was a nice large deer. He fired a charge of shot and knocked it down, then he thought of a spike he had in his pocket, and he fired it into his gun, put in a cartridge, fired and killed the deer. Quite a novel way to kill a deer.

Willard Barker went to Bridgton, one day last week.

Will Culbert went to Otisfield, on business one day last week.

Mr. and Mrs. Linwood Sawyer are visiting his parents home for a few days.

Bella Sawyer who has been attending school at Lovell, is at home on a vacation.

We hear the whistle of the new steam mill which will soon be running on full time.

A nice deer was killed by Linwood Sawyer, of Lovell, near the Jacob Lovejoy place. Since the snow the hunters have been out in full force.

Artemus Grover, of Fryeburg, has built a nice hunting camp near Leonard Gammon's, and Mr. Grover, with a party of friends from Fryeburg, are camping in it and looking for deer.

Capt. Ephraim McKean, an old time resident of this place, visited friends in this vicinity last week. He is 92 years of age and lived on his father's old place 50 years. He is hale and hearty and when visiting friends here last week he walked from place to place. His brother Hiram, who lives with his son, R. M. McKean, of North Stoneham, will soon be 91 and is quite smart and comfortable. Two smart old men.

Mrs. L. E. McAllister is gaining slowly.

Edgar McAllister and wife are in Lewiston, for a few weeks stay.

Theona Farrington, of Center Lovell, is visiting her grandparents, Mr. and Mrs. M. F. McAllister.

Mr. and Mrs. Ephraim McKean went to Lynchville recently to see their son who is critically ill at his home there.

Every one is hunting, the snow storm of Monday and Monday night, making an extra good time to track the game.

Little Iva McAllister, who has been staying with Mrs. George Brown, of Bartlett, for the past six weeks, is at home again.

Perley McKean was at West Lovell, Sunday, to see his mother, Mrs. L. C. Sargent. She has been sick a long time and does not seem to gain very much.

Charles P. Snyder, of Hampton Falls, N. H., secured a nice deer, Monday, and the gratitude of West Adams. They are the guests of Amos Lawler.

George Fox, of West Lovell, had quite a serious accident, Nov. 3. He started for North Lovell, in his canoe and was between the main land and Goldsmith's Island, when in some way the canoe capsized, and he was thrown into the water. He was rescued by the timely assistance of C. A. Garcelon and Edwin Allen, who saw his plight. "All is well that ends well," but it was a very narrow escape from death.

DENMARK.

Mrs. Lillian Smith Crawford.

Mrs. Lillian Smith Crawford, daughter of Mr. and Mrs. S. B. Smith, who has been sick a number of months with anemia of the blood, died Oct. 27. Her home was in Lovell, Mass., and she came to her old home thinking the change would improve her health. Her husband was with her, and employed the best physicians and nurses, but the fatal disease was beyond their skill.

Mrs. Crawford was the wife of John W. Crawford, clerk of the water board, of Lovell.

The funeral took place Sunday, Oct. 29, at her father's residence, Rev. Willard Palmer officiating, and singing by Mrs. Kate Sanborn. The funeral was directed by Edwin Head, undertaker.

The floral tributes were profuse and beautiful. The casket was borne by the late home in Lovell, Rev. Charles T. Billings, pastor of the Unitarian church, where Mrs. Crawford was a constant attendant, officiating at the services, and there was singing by Mrs. F. L. Roberts, of the Unitarian church.

Catarrh

Is a constitutional disease originating in impure blood and requiring constitutional treatment acting through and purifying the blood for its radical and permanent cure. Be sure to take Hood's Sarsaparilla

Nasal and other local forms of catarrh are quickly relieved by Catariets, which allay inflammation and deodorize discharge.

Hood's Sarsaparilla, all druggists, \$1. Catariets, mail order only, 50 cts.

For testimonials of remarkable cures send for Circular on Catarrh, No. 4, C. I. Hood Co., Lowell, Mass.

NOTICE!

The Wool Carding Mill at South Waterford will close for the season about November 1st.

W. K. HAMLIN.

HIRAM.

Roads Must Be Made for Autos.

Very likely the autos are froza up in the mountains as we haven't seen any for the past week, for which we feel very glad and hope they never can be thawed out again, as they ought not to be allowed to run on our narrow roads.

It is one of three things—our horse highways must be widened and there must be an automobile highway constructed or automobiles must go. The auto has come to stay it finds the place it was made for, where it belongs. Nothing can stay where it doesn't belong long. Time settles that. There is, however, a little comfort to be found at this season which we will try and make the most of. The automobiles have clattered the summer long.

With dust and small streamers after, hooking like geese or with clanging gongs, and a runaway horse is food for laughter. But the frost will coat the windows soon, and drifting flakes will drive like tury, but let the snow fall thick and deep.

We'll borrow under and eat and sleep, we've food a plenty in barrel and bin, and the automobiles will be snowed in.

C. C. Lowell is being appointed guardian for Sumner Durbin.

Mrs. Marshall Spring is visiting her daughter, who resides in Fryeburg village.

Francis Poore has sold his farm to his son Edwin and has moved to East Brownfield.

Alvin Lane has gone to Worcester, Mass., to see her sister, who is not expected to live.

Frank Merrifield and wife, who have been living with R. N. Lowell, have moved in with his mother, who resides at South Hiram.

Charles Alexander, who resides at East Hiram, was stricken with a very severe shock the other day and they think it doubtful if he recovers.

A very severe snow storm, visited this place Saturday, and as we made our trip over Hiram Hill we found five inches of snow, which made wheeling very bad.

As we were travelling up the line the other day we met an old fellow barefooted. We accosted him with "Hello, nolo, go barefooted up this way all winter?"

"Wal, some of um do and some of um mind their own business." We put the tape to Tippe and left the old fellow with his thoughts. We had ours.

We are sorry to learn that our esteemed friend and neighbor, George Norton, has sold his home and is going to leave us. He told us the other day he was obliged to sell as the woman, who had lived with him many years, left him for good and he could not run his farm alone. He sold his farm and timber lot to Getwell of Moulton. His large stock of cattle with a barn full of hay, large silo well filled, a large flock of geese and other poultry, all his farming utensils and household goods to Harmon and Poore.

ALBANY.

Arthur Andrews and his mother, are visiting friends in Casco, this week.

Fred Pierce and wife, of North Norway, spent the Sabbath with her parents Mr. and Mrs. Wallace Bird.

Mr. Odway, from West Bethel, was in town last week, and bought two cows and four calves of Abel Andrews.

The contract to build a telephone line from Lovell village to North Lovell, has been awarded to Amos L. Bean, of Albany.

NORWAY AND VICINITY.

A Noted Norway Boy.
Col. Frederic E. Boothby, general passenger and ticket agent of the Maine Central railroad, arrived in Portland, Wednesday, after a month's trip to Mexico. Col. Boothby is in very good health after his long trip and assumed his duties at the head of the passenger department of the railroad.

He was accompanied by Mrs. Boothby and their niece and all enjoyed the trip immensely. Colonel Boothby's main purpose in visiting the southern country was to attend to the convention of the American association of general passenger and ticket agents.

Norway Grange.

The anniversary of Norway Grange was observed Oct. 28. The meeting was opened by Worthy Overseer W. O. Perry in absence of the worthy master. After the business was transacted, recess was declared for dinner. At 1:30, the master called to order. This was made a public meeting. First on the program was music by choir; readings by Helen Noyes and Lucy Freeman; talk, Jessie Cox, "The Organization of the Grange." A memorial service was held in memory of the brothers and sisters, who have passed away within a short time. The first brother was Frank Tucker, sketch of his life by W. O. Perry. Resolutions were read on the death of Sisters Dphorah K. Rowe, Luciana Winslow, Mrs. Richardson and Brothers Jonathan Whitehouse, Wm. Richardson, John Wymann. Rev. Mr. Little of South Paris was present and gave a very interesting talk. At the close of the service music was furnished by the choir. Mr. Bicknell from Buckfield was present and gave a short talk.

Oh! Now That's Awful, Jack!

My DEAR SIR—I am interested in your inquiry for Ginseng.

We have plenty of it in Canada the only difference between the product of New England and this country is that you get yours out of the ground while we obtain ours have to dig into our pockets; of course, I am presuming that it is the same product.

Ginseng is a very good name for Maine—up here we call it Gin-sing. You find it in your pockets, take a few drinks of gin and sing after.

If you care to inspect the Canadian root, and cannot sing, we at least can send you home with a gin-jag. JACK.

With the Dead.

Dr. Walker, of Norway, recently visited a lonely cemetery in Stoneham, where there is many a neglected grave of Revolutionary and Civil war veterans. A gully river, meandering past the graves, is fast removing the landmarks of the McCallister burying ground. Few know the location of this cemetery for the relatives of the dead here buried are so distant that no one interests himself about it. "The last bodies to be placed there," said Dr. Walker, "were in about 1885. Since that time the river has cut into the cemetery, washing to such an extent some of the boxes exposed to view."

"The people of East Stoneham, who knew of this, took up some of the boxes and buried them in other places. The stones are all down, and there are few marks, or clues as to the identification of the graves. This was known as the McCallister burying ground from the fact it was a portion of the McCallister estate. Other people were buried there were the Evans, Durgins and McKens. The cemetery is in a secluded spot, a dozen miles from any farm house. The most of the people whose remains were buried here died during the small-pox epidemic that spread this section in the early fifties. I know many names in those trying days when family after family were stricken down, when the father had to make a box and bury his own children."

The first snow of the season Nov. 4th. Ralph P. Kneeland is clerking nights and Saturday's, at the Blue store.

Mrs. P. Murphy of Rumford Falls has joined her husband at Norway where they are to make their home.

Miss O. E. Routhier who has been at work in the shoe factory, has secured a position at office work in Berlin.

Mrs. W. A. Knipe, of Ward Hill, Mass., has been visiting Mrs. J. P. De Vise. She returned home Saturday.

Nye Gilbert, who is working in the Pittsfield Advertiser office, is at his father's, Charles Gilbert's, on a week's vacation.

Postmaster Stiles is having the boxes on the rural delivery routes from his office numbered in accordance with an order from the postoffice department.

Mrs. Abbie J. Tubbs and son, O. J. C. Tubbs of Waterville have been in town the past week making repairs on their tenement houses in the village. Mr. Tubbs is a freshman in Colby.

The Wildwood club met at the home of Geo. G. Abbott, North Norway, very pleasant evening was enjoyed by all. The following literary program was given by members of the club:

Song, "The Olden Days," Ethel Abbott.
Story, "The Olden Days," Florence Abbott.
Music, "The Olden Days," Ethel Abbott.
Story, "The Olden Days," Florence Abbott.

15	6:34	4:24	30	6:44	4:15

Well, we have arrived at the opposite summit of what was a new year not long ago. What are we looking across the space from one peak to the other the distance seems short, but the journey through the valleys and over obstacles has occupied our time so that the milestones have not been counted as we passed along. It seems but a short time since we were enjoying the autumnal beauties of 1904, and being saddened by the sight of falling leaves and naked trees; each season recalls similar experiences and conditions of former years that we forget the important features of other seasons.

The name of this month usually suggests cold winds and unpleasant weather and it is often a month of surprises although it occupies such a place in the year that there is no reason to be surprised at anything it may bring us. We often have warm, pleasant days which seem as if provided on purpose for putting on the finishing touches in preparing for winter, and it is wise to take advantage of these about as much as any farm, and it is not best to begin on more than one at a time, for like mending an old garment, there is more to do than appears on the surface.

It is a good time to move old stone walls that are tumbling down and to nish breeding places for vermin and bushes. Where to put the rocks may be a question, but it is always in order to have a fence on the line of the farm, and if there is one already the rocks might be lined up along side until they are wanted for the advanced system of road making.

If your cattle are not provided with shade trees in the pasture they can be set now on some elevation where the breeze will reach and the manure wash down to the grass below.

Do not let a few warm days lead you to think that the house and outbuildings will not need banking this winter. Anything that will hold the snow and keep out the wind is a protection to whatever is inside.

The game laws have taken away the fun the boys used to find at this season and made it unsafe to go in search of nuts, so some other way of passing the time must be adopted.

It would be more satisfactory in the end if people of all ages could enjoy a tramp in the woods without guns, and feel that they were only a part of the show, or spectators to be entertained instead of feeling that they were enemies to everything else that moved. It would be watched for an hour each day, and the boys would be made to learn lessons of industry and frugality which would be more valuable than the applause of the fellow hunters.

Where Have They Gone?

What has become of the old-fashioned man who carried a shot-bag in his pocket to keep change in?

Who wore barn-door trousers?

Who kept a boot-jack to pull off his boots?

Who had his trousers lined with unbleached muslin?

Who wore a long linen duster when traveling?

Who carried an old flat carpet-bag?

Who greased his boots on Sunday?

Who wore a watch-coord with watch-key fastened to it?

What has become of the old-fashioned woman who kept a bodkin in her work-basket?

Who baked custard for tea when she had no eggs?

Who made impressions around the edge of pies with a key, to make them look fancy?

Who wore calico sunbonnets with pastebord slats?

Who wore Shaker bonnets?

Who squeezed apple pies with allspice?

Who used indigo to blue the water when washing clothes?

What has become of the old-fashioned people who poured tea in the saucer and blew on it to make it cool?

Who drinks sugar tea in the spring to purify their blood?

Who has to learn to like tomatoes?

Who saved old rags to trade off to the tinware peddler?

What has become of the old-fashioned novelist who always described heroines as having dark auburn ringlets hanging down their alabaster necks?

Of the old-fashioned elocutionist who read "Widow Bedot Papers" at entertainments?

Of the old-fashioned little girls who wore long nankin pantalettes?

Of the old-fashioned woman who gave catnip tea to babies?

Of the old-fashioned young men who greased their hair with bear's oil scented with bergamot?

William Clifton Hazeltine.

The friends of William Clifton Hazeltine will be pained to learn of his death, Oct. 1, 1905, at his home in West Denmark, after an illness of a year and a half. Mr. Hazeltine went through with an operation at the Maine General Hospital, April 5, at which time his wife was with him two weeks, then returning to her home in West Denmark. She was cared for him until his death. Mr. Hazeltine leaves a wife to mourn, Mrs. Bertha Allen Hazeltine; also a son, Richard, an aged father, Wm. Hazeltine, and one brother, Guy Hazeltine who is now in Bakerfield, Cal.

FROM GIRLHOOD TO WOMANHOOD

Mothers Should Watch the Development of Their Daughters—
Interesting Experiences of Misses Borman and Mills.

Every mother possesses information which is of vital interest to her young daughter. Too often this is never imparted or is withheld until serious harm has resulted to the growing girl through her ignorance of nature's mysterious and wonderful laws and penalties.

Girls' over-sensitiveness and modesty often puzzle their mothers and baffle physicians, as they so often withhold their confidence from their mothers and conceal the symptoms which ought to be told to their physician at this critical period.

When a girl's thoughts become sluggish, with headache, dizziness or a disposition to sleep, pains in back or lower limbs, eyes close, desire for solitude when she is a mystery to herself and friends, her mother should come to her aid, and remember that Lydia E. Pinkham's Vegetable Compound will at this time prepare the system for the coming change, and thus prevent the period in a young girl's life without pain or irregularities.

Hundreds of letters from young girls and from mothers, expressing their gratitude for what Lydia E. Pinkham's Vegetable Compound has accomplished for them, have been received by the Lydia E. Pinkham Medicine Co., at Lynn, Mass.

Miss Mills has written the two following letters to Mrs. Pinkham, which will be read with interest:

Dear Mrs. Pinkham:—(First Letter.) "I am but fifteen years of age, am depressed, have chills, chills, headache and back-ache, and as I have heard that you can give helpful advice to girls in my condition, I am writing you."

Dear Mrs. Pinkham:—(Second Letter.) "It is with the feeling of utmost gratitude that I write to you to tell you what your valuable medicine has done for me. When I wrote you in regard to my condition I had consulted several doctors, but they failed to understand my case and I did not receive any benefit from their treatment. I followed your advice, and took Lydia E. Pinkham's Vegetable Compound and am now healthy and well, and all the distressing symptoms which I had at that time have disappeared."

Myrtle Mills, Oquawka, Ill.

Miss Matilda Borman writes Mrs. Pinkham as follows:

Dear Mrs. Pinkham:—Before taking Lydia E. Pinkham's Vegetable Compound my monthly periods were irregular and painful, and I always had such distressing headaches.

But since taking the Compound my headaches have entirely left me, my monthly periods are regular, and I am getting strong and well. I am telling all my girl friends what Lydia E. Pinkham's Vegetable Compound has done for me."

Matilda Borman, Farmington, Iowa.

Lydia E. Pinkham's Vegetable Compound Makes Sick Women Well.

If Everybody Lived 100 years.

Awkward Results of Universal Longevity Worked Out By an English Paper.

Suppose a man 50 years old, making a good income from his business, were to decide to live till he was 100 and not to retire until he was 90.

The first consequence would be that he would have the opportunity of making much more money than if he died at 70; next, that his children would have to wait much longer for it. Now, suppose him to have attained the age of 90, he would be watching for an hour each day, and the boys would be made to learn lessons of industry and frugality which would be more valuable than the applause of the fellow hunters.

His three sons, junior partners in the same firm, aged 65 downward, and his nine grandsons, aged 40 downward, will find very little to take out of the business, would still be living, and he would have to wait much longer for it. Now, suppose him to have attained the age of 90, he would be watching for an hour each day, and the boys would be made to learn lessons of industry and frugality which would be more valuable than the applause of the fellow hunters.

MISS LIBBY,
NORWAY, MAINE

DR. KENNEDY'S FAVORITE REMEDY

Breaks no Hearts, Excuses no Crimes.

Dr. David Kennedy's FAVORITE REMEDY is not a disguised enemy of the human race; where it cannot help, it does no harm. It is composed of vegetable ingredients and does not heat or inflame the blood but cools and purifies it. In all cases of Kidney troubles, Liver complaints, C. of the Bowels, and the delicate derangements which afflict women, the remedy of Dr. Kennedy's FAVORITE REMEDY is beyond praise. Thousands of grateful people voluntarily testify to its efficacy in restoring health, and with warmth and fullness of words which no business certificates ever possess, makes no drunkards—excuses no crimes—breaks no hearts. In its coming there hope, and in its going there is health. We challenge a trial and are confident the result. Your druggist has it. ONE DOLLAR a Bottle. Bear in mind name and address: Dr. David KENNEDY, Rondout, New York.

CALVIN ALSTON, Vice President, Boston, Mass.

DO THIS

The next time you have money send away call at the NORWAY NATIONAL BANK and get a check.

It is less bother and attended with less expense than at the postoffice. It is safer, too. The check is a receipt and can be seen at the bank and can be used as evidence of payment of the bill should

YARD AND OFFICE NEAR DEPOT, NORWAY, ME.
Doors, Windows, Shingles, House Finish, Lumber, Etc

To Make Pure

Biscuit, cake, rolls, muffins, dumplings, etc., a pure leavening agent is indispensable.

While the Royal Baking Powder is reported absolutely pure and healthful, the official reports show most other baking powders, as well as the cream of tartar of the market depended upon by many housekeepers for raising biscuit and cake, to contain either alum, ammonia or sulphuric acid.

Prof. F. L. Bartlett, Assayer and Chemist for the State of Maine, says:

"I have analyzed the Royal Baking Powder, and find no injurious substance nor any adulteration. The materials comprising the powder are pure, and the proportions quite accurate."

ROYAL BAKING POWDER CO., NEW YORK.

STOW.

Mrs. Frank Seaver is not as well. John Eastman is very sick with typhoid fever. We hear that Mrs. Ed Chase has typhoid fever. Mrs. M. E. Clay and sister visited relatives in Hollis the past week. Mr. and Mrs. A. C. Andrews and children visited Mr. and Mrs. Maurice Eastman, recently. Martha Stevens recently visited her cousins, Ceylon and Betsey Day. Miss Day being an invalid and Mrs. Stevens a shut in they seldom meet.

NORTH BETHEL.

Shot a Large Deer. Harry Bryant shot a large buck deer while returning from Newry, Monday morning. Frank Ballard, of Hastings, visited his friend J. F. Guptill last week. Dell Stearns finished work at H. R. Godwin's and has gone to Massachusetts to learn a trade.

Driven out of Norway

I understand some dealers threaten to drive me out of Norway at any cost, although I surely can see no cause for such feeling. I came here in very poor circumstances and almost totally blind, so it is impossible to do anything else. On a back street I am doing small business. For well-to-do traders to try to crush out a poor blind man in this way is unfair. My coming to Norway has been a benefit to all who buy because it has lowered prices. It is for your own interest to buy of me even at same price for if they succeed in placing me and my little children on the town farm certainly prices will rise higher than ever before.

J. K. CHASE

Beal St., NORWAY, MAINE

WEST PARIS.

Liked Home the Best. The horse with which Mr. and Mrs. Lafosse Judding drove here to visit Mr. and Mrs. A. D. Coburn last week, did not seem to enjoy wedding visits so much as his master and mistress, for one night when Mr. Judding lead him out to water he yanked away and trotted down the road and out of sight. It was so dark that he could not be found that night. In the morning the hunt was resumed. Not finding him they concluded that he must have started for Carthage, his home. By telephoning along the way he was found at West Sumner where he had been caught by Geo. Fulsifer. He evidently had started for home.

Here is an account of another of our domestic animals which shows that a cat like the horse just mentioned liked her original home best. Recently Mrs. Willard Cobb of Trap Corner gave a year-old coon cat, Ruffles to Mrs. Eugene Hammond, who kept Ruffles in the house two or three days or until she seemed contented, then let her out thinking she would soon come in again. But she did not come and could not be found. About three days afterward Mrs. Cobb called and told Mrs. Hammond that Ruffles had returned home, a very tired and hungry kitty after her wandering.

Finland Religious Services.

The Finnish service held last week on Wednesday evening and Thursday forenoon was attended and very impressive. It was attended by about 30 Finlanders and as many more Americans. The minister who came was the Rev. Aappo Salminen, pastor of the Finnish Lutheran church at Worcester, Mass. He has been in this country about three years. After the service was over he tried to speak a few words to the Americans to thank them for their kind attention, then he turned to the Bible and read his text, Matt. 11: 28-30. He had a very pleasing voice and quiet manner. He played the organ for the Lutheran hymns and at the close sang a sweet solo. Thursday forenoon several babies were baptised and the Lord's supper administered.

Geo. Ridlon is in town, visiting. The Universalist church is up and partly shingled.

Mr. and Mrs. J. F. Emerson spent last week at J. Reed's.

Louise Warren of Buckfield visited last week at Mrs. Q. M. Irish's.

Mrs. Abner of Locke's Mills recently visited her sister, Mrs. O. K. Yates.

Ethel Holden, the young daughter of Mr. and Mrs. Harry Holden, is very ill with typhoid fever.

Samuel Estes is very sick at this writing. He was threatened with pneumonia but now it seems to be heart trouble.

Mrs. Frank Briggs of Portland and her daughter Marion Adams of Norway visited over Sunday with her mother, Mrs. Sara Curtis.

The Good Will society are getting up a drama entitled Valley Farm. The cast of characters are arranged and the rehearsals are in progress.

Another series of special meetings is to begin at the Methodist church Nov. 12. Rev. I. T. Johnson of Vermont will assist in these meetings.

Onward Rebekah Lodge will have a variety entertainment in Odd Fellows hall Tuesday evening of next week Nov. 14. The program will consist of music, readings, a drill, tableaux, etc., and a comedy farce, Pete Broom, with the following cast of characters:

On stage: Carroll A. Bacon, Charles L. Ridlon, Hamlet, Fredrick, Jennie L. Bradbury, February, Mrs. C. P. Riggs of North

It is the intention to have a sociable after the entertainment.

Over 100 visitors from out of town visited a special meeting of West Paris Lodge, No. 15, I. O. O. F., at which the Norway Lodge worked the 3d degree on one member and did it in fine shape. The Norway and South Paris guests had the service of a special train coming and going. There were 14 different Lodges represented who came from several different states and other parts of this state.

On guests, G. F. Piper, who is agent of the Local Protective Association, and who is around insuring Odd Fellows, is from Orange Lodge, California. West Paris Lodge furnished supper in their hall.

FRYEBURG.

Prof. Willard and wife were in Portland, Saturday.

Ralph Cousins has moved to Westbrook, for the winter.

The Oxford has been reopened for the winter by Frank Plummer.

Mr. and Mrs. James E. Elia have gone to Boston, for a short vacation.

Mrs. Thomas Grady and daughter Mildred, are visiting her sister in Massachusetts.

Mrs. C. E. Allard and children, have been visiting her parents, in Cornish, lately.

A. E. Jenness and Col. Farrington, made their farewell trip to camp Kezar, Saturday.

Mrs. Geo. Shirley will make her home with Mr. and Mrs. Charles Harriman, this winter.

The Uncle John Smith house owned Dr. C. E. Harris, has been let, it is rumored, to Dr. Lougee.

Eben Fessenden is making some repairs upon his house occupied by Charles Lord and family.

Rev. Mr. Stone was called to Connecticut, recently, by the death of his father, an aged gentleman 92 years of age.

Herbert Pushard and wife, have moved to Bethel, where he has purchased a drug store. Mr. Pushard has been in employ of Mr. Ladd for several years.

Geo. Haley, who recently returned from Japan, will, under the auspices of the "Woman's Club," give a lecture Thursday evening, upon that country, people, and customs etc.

Rev. Mr. Wilson began his labors as pastor here, Sunday last. He is assisted in his work by his daughter. It is earnestly hoped that all of the members will take hold and help them and great good be accomplished.

EAST OXFORD.

John Penley bought two cows of Morris Klein of Norway last week.

John Cleveland of Otisfield was in this place selling beef, Nov. 6.

Alice Needham entertained a friend from the Highland Farm, Oxford, Sunday.

Mr. and Mrs. Eben Chapman of Paris visited Mr. and Mrs. John Penley recently.

Wm. H. Thomas and Chester Witham have been at work for John P. Hall, carpentering.

SOUTH WATERFORD.

Stricken with a Shock. Miranda Billings was recently stricken with a shock and is at this writing very low.

The school on Blackguard closes this week.

John Shaw, who has been ill, is now gaining.

Mrs. Frank Shaw will visit this week in Lewiston and Portland.

There is to be a party and entertainment at Blackguard schoolhouse Thursday night.

John Wentworth is home from New Hampshire, where he has been at work for some time.

We understand that Douglass has bought the most of the apples of the farmers on Blackguard.

Mr. and Mrs. V. Decker have left their farm and have gone to live at Frank Bell's, Mrs. Decker's sister's.

E. P. Kimball is having repairs done on his buildings. He is finishing a kitchen and doing other repairs on and about the buildings.

Eugene Nelson has gone to work in a mill at Rumford Falls. Mrs. Nelson, his wife, has gone to pass the winter among relatives in Massachusetts.

Alfred and Harold Kimball, Eugene Quint of Brownfield and Clarence Clark of Portland are hunting in the Lovell woods and camping on the grounds.

News came to us that J. R. Hall of Westbrook is in feeble health. He is a resident of this town passing the winter seasons with his daughter in Westbrook.

The L. and S. club hold their next regular meeting, Nov. 15, with Mr. and Mrs. Frank Stearns. Program:

Music.....Jennie B. Hamilton
Current events.....Mrs. W. K. Hamilton
Selection from Roman F. Day.....Frank Shaw
Singing, Saved by Grace.....William Kimball
Local news.....Mrs. Frank Stearns
Reading.....Mrs. Frank Stearns
The Power That Rules the World.....E. R. Longley
Quotations from miscellaneous authors. By all Music.....Jennie Hamilton
Social hour.....

GILEAD.

A 300 Pound Bear. Leon Wallings shot a bear one day last week, which was estimated to weigh 300 pounds.

Over six inches of snow fell Monday. Archie Heath is sick with bilious fever.

J. W. Bennett's mill has closed for the winter.

Colds are prevailing through our village.

J. W. Bennett has gone to Boston on business.

Jason Heath has returned to his home in Bethel.

Mrs. Melissa Bennett is visiting relatives in town.

Wm. Griffin was in town Sunday to visit relatives.

B. N. Harriman has bought the Arthur Bennett place.

Mr. and Mrs. Frank Heath are hunting a few days in town.

Mr. and Mrs. A. L. F. Pike of Norway was in town last Friday and Saturday.

Mr. and Mrs. Walter Juddkins of Portland are spending a few days in town. Mr. Juddkins shot a deer Saturday.

SOUTH ALBANY.

Will Go to the Sisters' Hospital. Mrs. Henry Sawin was visited last week by her daughter and granddaughter, Mrs. Etta Holt and Nora Holt. Mrs. Sawin goes this week to the Sisters' Hospital at Lewiston for the removal of a tumor at her shoulder.

Her sister, Mrs. C. P. Riggs of North Bridgton, goes with her and will also have a tumor removed from her shoulder.

Ernest Pike of South Waterford was at J. D. Hor's last Sunday.

Mrs. Walter Lord is visiting her father, H. A. Bickford, at East Stoneham.

Mrs. Fannie Kimball has been renovating her house with new paper and paint recently.

Roy Lord has a very fine, large pair of Rekeys, which he bought of Orrington Rowe of Lewiston.

Nearly all the apples in this vicinity have been packed and are being hauled by Wallace Jones of North Waterford with his six horse team.

WEST FRYEBURG.

A respectable snow storm was that of Monday, for the beginning of winter.

Harold McKee has removed his household goods to the Colman house, which, with his family now occupies.

Forest Hill and family, of Dorchester, Mass., are late guests of Mr. and Mrs. Dana Hill, at the ancestral home near Upper Kimball pond, South Chatham, N. H.

E. W. Burbank has been at work finishing the work upon the addition, Dean A. Ballard's house. John Andrews was obliged to leave to go to work upon a house building in Fryeburg village.

Chester Anderson has sold his farm, stock, farming implements and produce, to F. Gale, who will take immediate possession. Mr. Anderson and family moved to the rent just vacated by Harold McKee and family, which they will occupy temporarily.

Hon. B. W. McKee has returned from a lecturing tour which included several towns in New Hampshire, from Wolfboro north to Colebrook. He is engaged to speak at several other institutes and agricultural meetings in the near future in our neighboring state.

Florence Emery of Lovell is at her grandmother's, Mrs. A. S. Farrington's.

Blanche Eastman has returned to her home after a stay of four weeks at West Fryeburg.

Leon McIntire of Keamsburg, N. H., was a recent guest of his sister, Mrs. W. M. Farrington.

Walter Hardy has been confined to the house for ten days with rheumatism, but is now able to be out.

Mrs. Sarah Stevens is going to Pasadena, Calif., for the winter, in the Raymond excursion party.

Mrs. Oliver Hutchins took advantage of the excursion, Nov. 2, to visit relatives and friends at the Hub.

Mrs. C. A. Wentworth of Lynn, Mass., was a recent guest of Mrs. W. M. Farrington, where recent illness called her.

Henry and Alex Stevens have gone to spend the winter with their nephew, Dr. F. E. Stevens, who is located in Bayonne, N. J. They left Nov. 3, closing their home until their return in the spring. The large farm owned by them is for sale.

Blue Stores.

JAMES N. FAVOR
91 Main St., Norway, Me.

You can get the best without leaving town. If I cannot prove that the Ranges I carry are such it is my loss. You take no chances. Ask any person who has one, I will abide by the answer. I will give you names of many ladies who are using them. Atlantic Ranges always please. Glenwood Ranges make cooking easy.

Wm. C. Leavitt,
Norway, Maine

A WARM FRIEND

Is one of our Hot Water Bottles. In cold weather these are a great comfort. Don't go to bed with cold feet and the shivers going up and down your back, when a Hot Water Bottle will make you comfortable and insure a good night's sleep. Invaluable in case of sickness.

We have a large and complete stock just received. 1, 2, 3 and 4 quarts, prices run from 75c to \$1.50. Of course the better grades are much more economical than the cheap ones, because they last longer, but we can sell you either one as you want it. Come in and look at them.

F. P. STONE, Druggist,
143 Main St. Norway, Maine.

COFFEE

Try Winslow's Special Blend Coffee with the morning meal. It will start you out right with your day's work. Blended and sold by

Pine Tree Park Bought.
Albert P. Bassett has bought the land, buildings and materials at Pine Tree Park between Norway and South Paris, having made a settlement of the claim held against the park by parties furnishing material and labor. Mr. Bassett is cleaning up the grounds, during his spare time and intends to have the place in a very neat condition. He says the park will be run next year, but does not say he will run it.
Mrs. H. L. Bartlett is recovering from her recent illness.
Susie Wheeler of South Paris is teaching in the Norway schools.
Mary M. Bickford was home from her teaching in Portland over Sunday.
Leroy D. Rand of Poland Center is a guest of his sister, Mrs. J. K. Chase.
Frank Paragard returned, Wednesday, from Poland Spring, where she has been during the summer.
Judge A. K. Morrison and wife of Rumford Falls were guests of her parents, Freeland Howe and wife.
Norway Main street has frozen so rough that most teams go on the smooth bit between the electric railway rails.
Raffia work is engaging the attention of several Norway ladies this winter. An almost endless variety of useful articles can be made in this work.
Roger Hutchins, clerk at the Deal hotel, is at his home in Fryeburg for a few days. Allie Buck, a former clerk is clerking at the hotel during his absence.
Helps in Carrying Out the Purpose and Plan of Life will be the title of the course to be given by Rev. B. S. Bickford at the Congregational church, next Sunday evening, in the series "Live Themes for Young People," if the weather is fair.
Rev. I. C. Fortin of Trinity church, Lewiston, held service last Thursday evening at Christ church. The subject of the preacher's sermon was "Learn by Experience" and was a very able and helpful discourse, which will be remembered by the hearers.
Saturday afternoon a hearing was held at the selectmen's office on the petition of O. P. Brooks to close the streets of the house on the rear of a lot bought by him of the Lawson L. Merriam estate, of Pleasant street at Cole's hill. Resident of Pleasant street appeared in opposition and the selectmen decided not to grant the petition.
From their own summer's find, are the gems of those Norway people, that have been placed by them in the hands of lapidaries, for cutting. This will add largely to the list of those who have gems of local cutting. In the late Mrs. Hattie Abbott, Grace Holden, Mrs. Georgia Swain, Mrs. Lena Andrews and Messrs. William and R. L. Bickford.
The pastor of the Universalist church will preach next Sunday from the text, "Now is the day of salvation." In the evening he will give his second revival lecture, answering the question "Does prayer influence God?" There will also be a class at the parsonage at 7:30 P. M. day evening, for the study of the Bible. Scripture lesson, Nehemiah 1: 1-11. Everyone is invited to be present. No questions asked anyone.
A chicken pie, salad and pastry dinner will be served by the ladies of Norway, Grange at Grange Hall on Saturday, Nov. 18, from 12 to 2 o'clock, followed by an entertainment. The Grange ladies are noted for the fine dinners they get up. Fully three months ago we heard of Grange get up some more dinners. And he added to enlighten his friends who had never tasted these dinners. "They are all right."
